

Testimonial December 3, 2018

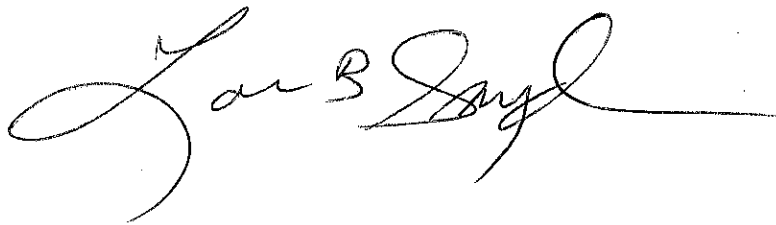

In our time with CQ Simple, we can tell they pride themselves on customer support. Their company and technical support has been top notch and they always go above and beyond.

We currently are using their VoIP Nimbus system/ CQ phones and their IT Managed services. As the General Manager of the Midland Mall I have to have a reliable phone system at all times and they truly shine. The phone system is also very flexible and able to make changes at a moment's notice. It gives us features no other system has in the past.

Their IT Managed service gives us the peace of mind that we are protected against cyber hackers. They are always there if the problem is big or small and always do an excellent job. It is nice to see monthly reports to show the hard work they are doing behind the scenes.

If you are looking for an IT/Phone Company, I would strongly recommend give the team at CQ Simple and call right away.

Lori Snyder

A handwritten signature in black ink, appearing to read "Lori Snyder". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
